## ... SO WHO IS VIEWTV ?

ViewTV are the only New Zealand manufacturers of Integrated Digital Signage Displays, Video Walls and Touch Screens. We offer Sustainable, **Trouble-Free Solutions** with Ongoing Support.

We developed " **Playlist** " as our own proprietary Network Content Management Software. The easiest to use Digital Signage Software in the world!

" **We are the Manufacturers, Not the middlemen** "

## PLAYLIST SOFTWARE OVERVIEW

ViewTV " **Playlist** " Digital Signage Software has the capability to produce and control multiple content zones. Each zone can be populated with an individual Playlist of mixed media content such as **Videos, Images, Scrolling Text, Weather/News Widgets, Websites, HTML, Flash RSS Feeds etc..**

Each Playlist runs in a continuous loop per a preset schedule. Different zones & layouts can be time scheduled to play at different times of the day/ month or year. Unlimited user permissions & Display location grouping offers huge flexibility when deploying multiple screens across multiple locations.

" **Playlist** " software comes with a number of free layouts so you can be up and running displaying your choice of content in a professionally designed format within minutes, or you can easily create your own. Our intuitive layout and design tool makes it easy to create and modify content zones within your display.

Resize, position, and snap layer zones with a simple click and drag!. You can also manually set pixel or percentage measurements to achieve pixel-accurate Alignment of zones or lock zones to desired aspect ratios (16:9, 5:4, or 4:3) etc... You can also display Live TV, HDMI Feeds or Network Streams in Full HD 1080P. Our RSS subscriber features also enables you to automatically collect and display live text RSS crawl feeds from any site over a network.

" **Playlist** " Digital Signage Software enables you to easily and efficiently deliver a high Impact engaging, informative display.

## CONTENT SERVER HOSTING

## Option 1. Have ViewTV take care of everything...

This option is perfect for businesses who simply want to purchase a ViewTV PC (with **Playlist** pre installed), then login and start using it without having to purchase or setup a dedicated server. ViewTV also offers a networked cloud hosting service allowing for remote Internet access to multiple PC's and displays.

## Option 2. Host your own Playlist server and content

This option is perfect for businesses who already have dedicated servers set up or who would simply prefer to host their own content online or over a private network. We offer a full installation **Playlist server** software package & training (*Windows based server software*) to host your ViewTV **Playlist** content.
